MOUNTING AND REMOVAL OF EARTHMOVER

TECHNICAL ASSISTANCE AND TRAINING

All tools for mounting and removal of earthmover tyres in the assembly shop or on site.

- Installation and commissioning of complete assembly shops up to 63 inches.
- Supply of tyre removers for 1, 3 and 5-piece wheels. Tools for placement of sealing joints. Jacks and airbags. Various accessories.

Our TRAINING CENTRE has been set up to teach to our customers the skills required to use Schrader products in the mounting and removal of 1, 3 and 5-piece agricultural, HGV and earthmover tyres.

Professional training is essential to learn the complete safety procedures before providing service.

Safety recommendations:
see page 158.
